About the Art

- Mostly known for more stylized, sleeker portrait heads produced later in his career, the artist here has given the surface of the sensitively rendered head an expressive, obviously hand-worked treatment. The edge of a modeling tool has been used to incise the eyebrows and the hairline.
- The noted art historian and critic David Driskell wrote that William Artis “has not attempted to solve problems with his art but has seen beyond those obstacles often binding the human spirit. He has encountered through his art the meaning of a universal world” (1971).
- The base of this sculpture was probably made by the artist himself.
